ROME, Jan. 12.—Solidarity of the Japanese-German-Italian "triangle" was clearly manifested today in a series of diplomatic conversations which took place simultaneously with the "clear-the-air" deliberations between Prime Minister Neville Chamberlain and Premier Mussolini.

As word circulated that little actual progress had yet been made in the Anglo-Italian discussions beyond mutual pledges of friendship, it was disclosed that the German and Japanese ambassadors in Rome had called at the Italian foreign office during the last 24 hours.

Germany Informed
The German envoy at least was informed fully of the progress and nature of the Chamberlain-Mussolini conversations, a fact interpreted as conclusive proof that no member of the Nazi-Fascist anti-Communist bloc is willing to take any major step without consultation with its allies.

Hans Georg von Mackensen, the German ambassador, called upon Foreign Minister Count Galeazzo Ciano at 11:05 a. m. today, while Chamberlain and members of his British delegation were busily en-

WASHINGTON, Jan. 12.—Administration leaders and spokesmen for a bi-partisan bloc opposed to New Deal spending, lined up their forces in the house today for a showdown on President Roosevelt's relief program.

With the house scheduled to complete action by tomorrow night, the powerful appropriations committee convened behind closed doors to go

through the formality of reporting to the house a \$725,000,000 WPA appropriation measure, a sum \$150,000,000 under the amount asked by the president a week ago.

May Force Roll Call

Although opposition leaders appeared confident that the house would pass the bill with cut-inact, administration chiefs nevertheless mapped a floor fight aimed at exploring the slash. Through adroit maneuvering on the part of Major-

Testifying before the senate commerce committee, which is considering his qualifications for senate confirmation as commerce secretary, Hopkins flatly denied that the elections had anything to do with the number of persons on relief.

WASHINGTON, Jan. 12.—In defense of his membership in the American Civil Liberties Union, Prof. Felix Frankfurter, nominated to be an associate justice of the U. S. Supreme Court, told a senate hearing today that the union "has absolutely no connection with Communism."

Prof. Frankfurter thus replied to charges before both the Senate Judiciary subcommittee, which is conducting the hearing, and the Dies committee investigating un-American activities that the Civil Liberties Union is spotted with the Lenin philosophy.

But the union's door is not closed to Communists, Prof. Frankfurter said, "if a Communist should appeal to the union for protection of his rights under the constitution."

Heavy Fog Forces Several Planes Down Enroute From Miami

(BULLETIN)

(International News Service)
ATLANTA, Ga., Jan. 12.—Dense fog that forced down four airplanes today shrouded the fate of three other ships homeward bound from the all-American air races at Miami, with five occupants.

One person was fatally injured in the crashes reported so far, and several others were injured seriously.

Westfield Man Killed

The man killed was Harold L. Knowlton, 30, of Westfield, N. Y. James E. McGuinn, 35, a flying instructor at Northeast, Pa., who was piloting the plane in which Knowlton was a passenger, suffered severe cuts and bruises when the ship crashed into a field near Atlanta after running out of fuel.

The occupants of the three missing planes are all Canadians. P. F. Giles and R. Patterson, both of Toronto, made a forced landing near Savannah and asked a search be made for their companion planes that left for the north with them from St. Petersburg, Fla., yesterday. They said they had been separated from the fog and feared all three had been forced down since the pilots knew nothing of blind flying.

Occupants of Planes

They listed the occupants of the planes as:
Jerry Avison of Toronto, flying alone; Jack Gibson and another Mr. Patterson of Hamilton, Ont.; and Bruce Bowden and Jack McGraw of Brantford, Ont.

Pilot Jack Withers of Danville, Va., was critically hurt with fractures of the leg and arm.

Sewing Projects Are Consolidated

Overhead Expense Is Reduced
By Closing Produce
Street Unit

Rental expense to the county for the Produce Street Sewing project will be reduced through the consolidation of this project with the Lawrence School unit, it was stated by WPA officials here today. Approximately 85 women will be affected by the transfer.

This has been made possible by the certification of 150 women from direct relief to the "Aid for Dependent Children" fund in the county there by dropping them from sewing projects rolls. The county has been furnishing the building used for the Produce Street unit.

Complete Plans For Trip To Inaugural

Final plans were completed Wednesday night by the committee in charge for the participation of Lawrence county Republicans in the inaugural of Governor Arthur H. James in Harrisburg on Tuesday, January 17. The meeting was held in The Castleton hotel.

Four special pullmans will leave New Castle or about 100 people. In addition to these, as many or more are expected to drive to the inaugural. All Lawrence county Republicans present in Harrisburg that day are expected to join the county delegation in the parade. A gathering point will be designated and also

a headquarters room in some hotel named. Announcement of these will come later.

Canes and badges for the parade will be put out on the train which leaves Monday at noon, over the Pennsylvania Railroad. At Pittsburgh the cars will be attached to another Inaugural Special and the train put through to Harrisburg, arriving there about 7:30 Monday night. The berths will be used for sleeping Monday night.

One and perhaps two of the cars will remain in Harrisburg an extra day for the farm show, the other two returning at 1:30 a. m. Wednesday, January 19.

Demand Purge Of W. P. A. Rolls

Committee Demands "Mal-
ingerers" Be Purged—
Fund Of \$725,000,000
Urged

START BATTLE TO CURB EXPENSES

(International News Service)
WASHINGTON, Jan. 12.—Demanding that WPA purge its rolls of "malingerers" the house appropriations committee today formally approved a \$150,000,000 slash in President Roosevelt's \$725,000,000 emergency relief request and despatched the reduced appropriation bill to the house floor for immediate action.

Simultaneously, the Republicans members of the committee filed a minority report charging that "acknowledged abuses and corruption" in the administration of relief constitute a "national scandal" that requires an immediate investigation.

The committee also approved a legislative rider aimed at blocking President Roosevelt's announced intention of placing 32,300 WPA administrative officials under civil service. The committee declared that it believed such a step would be "unwise."

Flight Is Opened

Washington, Jan. 12.—Spurred by a formal demand from the powerful appropriations committee for WPA to purge its rolls of "malingerers," a coalition bloc of economy advocates opened a fight on the house floor today to curb relief expenditures.

In what appeared, inferentially at least, to be a reply to President Roosevelt's exposition of a week ago to congress on meeting of a week ago to raise the national income to \$80,000,000,000 the leading champion of economy in the house, Rep. Woodrum (D) of Virginia, took the floor to denounce those who believe that some "fairy godmother will wave a magic wand" to pay for "our improvidence."

WASHINGTON, Jan. 12.—While there is not even a "remote" thought of the United States engaging in war on any foreign territory, President Roosevelt asked congress today for an emergency appropriation of \$525,000,000 to put the country in a position of preparedness to resist any aggression.

In his annual message a week ago, Mr. Roosevelt asked for \$1,126,000,000 for national defense. The additional half billion asked today would make the national defense budget for the year \$1,651,000,000—the greatest in peace time history.

Greater Part For Planes

The greater part of this emergency appropriation, or \$300,000,000 the president said, should go for airplanes.

"This should provide" his message stated, "for a minimum of 3,000 planes, but it is hoped that orders placed on such a large scale will materially reduce the unit cost and actually provide many more planes."

As in his annual message, the president emphasized that changing world conditions necessitate a reconsideration of American defense problems.

"What needs to be emphasized," he said, "is the great change which has come over conflicts between nations since the World War ended, and especially during the past five or six years."

New Castle's annual president's ball, to raise funds for the nation's war on infantile paralysis, will be held in the Cathedral ballroom Saturday evening, January 28, Attorney Elmer D. O'Neill, county chairman for the affair, announced today. O'Neill named Francis M. Hammond city chairman.

The county chairman called for committee volunteers and pointed out that funds this year will go to establish local chapters of the National Foundation for Infantile Paralysis.

Chairman O'Neill said: "If you are in a position to serve in any capacity, communicate with me or your community chairman. Only by enlisting services of all can we control the maiming edict!"

McKeesport is the latest city in the district to adopt parking meters, having agreed upon a 90-day trial period.

Although it is only January, signs of spring are beginning to appear. Paul Miller of Costonia, O., son of Mrs. George Miller, 418 East Washington street, caught a blacksnake on January 10, which measured five feet, one inch.

It is unusual for a person to penalize himself for his neglect about civic matters, but a local man walked into the office of the Lawrence County Tuberculosis Society Wednesday, and after paying \$2 for the seals he had used, forked over an additional half dollar, which he said was for his neglect in not paying up more promptly.

Pa New, thanks to Fred Fulkerson who provided the information, can report that the cobblestones which once formed the East Washington street paving, are now beneath the present Central Fire Station on South Jefferson street. Before they were placed under the engine house they formed the foundation for the old Park Theater, once located where the Haney furniture store now stands, he reports.

It might be interesting to some of the local students to learn that Arthur E. Doctor Shoots Three; Then Suicides

Tragedy Occurs In Pittsburgh

Constable Is More Seriously Wounded Of Trio Shot By Doctor

SEIZURE ATTEMPT CAUSE OF SHOOTINGS

(International News Service) PITTSBURGH, Jan. 12.—Shot by a desperate, debt-ridden physician in suburban Ingomar, Constable Bailey K. Schaefer was in a hospital here today with a bullet wound in the abdomen, received when he and two companions attempted to seize the doctor's car for non-payment of rent.

The physician, Dr. Charles C. Stanton, 60, committed suicide by shooting himself in the head after wounding the constable and two real estate agents, James Crouse and John L. Schaefer, according to police. Neither Crouse nor J. L. Schaefer were injured seriously.

Will Probably Recover
The constable early this morning was reported in "good" condition but that complications were feared. He is alleged to have struck Dr. Stanton with a blackjack during an argument which preceded the attempted seizure, according to authorities.

Desperate when the real estate men appeared to take his car, Dr. Stanton tried to postpone the inevitable but the real estate firm refused his plea. The four men engaged in a battle in the garage with the shooting as an aftermath.

Mrs. Stanton brought the three wounded men into her home while her husband went upstairs. A few minutes later the same revolver used in the affray snuffed out his life.

merged in politics under his regime. First issue to be settled by the committee today was whether to allow all persons who want to talk about Hopkins to testify. Chairman Bailey (D) of North Carolina, said if the hearing is opened wide "we will have witnesses from all over who want to be heard." The committee must draw the line, he said. Hopkins' three and a half hours of testimony yesterday apparently had failed to change the alignment in the senate on his nomination. His critics said they were more convinced than ever that he should not be confirmed; his friends said he should be confirmed; his friends said he should be confirmed; his friends said he should be confirmed.

Serious Question
"The testimony and information developed raise a very serious question in my mind on whether Hopkins should be confirmed," said Senator Johnson (R) of California.

Bailey summed up Hopkins' testimony as a series of "admissions." Hopkins admitted WPA involvement in politics, admitted he had not made political speeches as WPA administrator and admitted that he should have fired WPA personnel that engaged in politics, Bailey observed.

See Senate Floor Fight
While the committee was expected to recommend senate confirmation for Hopkins, it is now evident that there will be a fight against him on the senate floor. Consensus of Republican and Democratic senators was that he will be confirmed.

Several veteran senators said privately that opinion in the senate on Hopkins does not yet "jelled." On the Republican side there were members advocating that the G. O. P. vote solidly against confirmation as an expression of opposition to alleged relief in politics under Hopkins' administration.

However, administration leaders said they were satisfied that the Republicans do not have the 23 votes against confirmation, there will not be enough defections on the Democratic side to reject the nomination. Foes of confirmation had barked heavily upon obtaining proof that Hopkins had stated: "We will spend and spend, and tax and tax and elect and elect."

Satisfied Hopkins Made Statement
Hopkins flatly denied making the statement.

"I deny the whole business," he testified. Arthur Krook, chief of the New York Times Washington Bureau, who had written that Hopkins made the statement, testified he was satisfied by his source of information that Hopkins did make the statement last summer. Krook declined to reveal the name of his informant, because to do so would be a violation of a confidence.

Similar testimony was given by Joseph Alsop, who writes a syndicated newspaper column from Washington. Frank R. Kent, columnist of the Baltimore Sun, who also attributed the "spend and spend" remark to Hopkins, sent the committee a notarized letter giving substantially the same version as Krook and Alsop in their oral testimony.

Correct This Sentence: "I visited the famous man's old home town," said the reporter, "and nobody there was surprised by his success."

Forcing motorists to be careful resulted in decreasing motor accident deaths in Pennsylvania from 2564 to 1570 last year, a reduction of one-third or better. Most of this was due to cutting the speed limit on the highways to 50 miles per hour and rigidly enforcing the law.

If motorists could be forced to take the same care in the cities, the results would be amazing. Most of the accidents and deaths which occurred in the city here last year were due to carelessness.

Leave it to the Kiwanis club—you can always count on it for something new. Just for the fun of it, we hear, the retiring administration of President Orville Potter (he's now the X) will be thoroughly probed!

LITTLE PROGRESS IS REPORTED AT PARLEY IN ROME

Gaged in a round of social activities that culminated in luncheon with King Victor Emmanuel at the Quirinal Palace.

Late last night, Toshio Shiratori, newly-accredited Japanese ambassador to Italy, called at the Palazzo Venezia for a private talk with Mussolini in the same room where only a short while before Il Duce had received Chamberlain and his delegation.

Call Merely Courtesy?
In the case of Shiratori, the Italian government stressed that his call was merely a courtesy one, the audience being granted immediately after formal presentation of his ambassadorial credentials.

This conversation lasted for half an hour and was of a general political nature, the European situation not being touched. The case of Von Mackensen, it was understood, was considerably different.

The German envoy did not see Mussolini himself, but visited Ciano at the latter's own invitation. The foreign minister acquainted him in full detail with the subjects discussed last night by Mussolini, Chamberlain and British Foreign Secretary Viscount Halifax. Ciano also filled in Von Mackensen as to the nature of his later discussions with Halifax this morning.

Italy To Respect Triangle
This diplomatic negotiations lent strength to the belief that Italy plans to respect most scrupulously the letter and spirit of the German-Italian-Japanese triangle and plans no concessions or alterations in the balance of power in Europe without preliminary consultations among the three totalitarian powers.

Efforts to attach overwhelming importance to the receptions, however, were discounted by competent observers. Reports cabled abroad that Mussolini personally had received both Shiratori and Von Mackensen were denied and his audience with the Japanese envoy was described as mere diplomatic protocol.

Little Headway
It became increasingly evident as the day progressed, however, that little headway had been made in the bilateral Anglo-Italian talks.

Some British circles in Rome expressed belief there might be no further talks after the conversations scheduled for tonight. It was generally understood Mussolini had succeeded in doing no more than outline Italy's position and that no formal presentation of demands had yet been made.

Il Duce has done what talking has been done so far, however, it was said, and Chamberlain was understood planning to set forth his stand tonight. Mussolini was understood aware of Britain's intention neither to mediate nor make concessions at the present stage until formal negotiations between France and Italy are opened.

ity Leader Rayburn, supporters of the president, believed they had created a parliamentary situation that would force a roll call vote on the reduction, thus putting every member of the house on record.

Rep. Woodrum (D) of Virginia, chairman of the appropriations subcommittee which voted the cut and the leader of the house economy bloc, predicted that the measure would go through with \$725,000,000 as the top figure.

He also expressed belief that the house would approve restrictive riders on the bill blocking Mr. Roosevelt's announced intention of putting 32,200 WPA administrative officials under civil service for life, and requiring the agency to make the reduced appropriation last until July 1.

GET COMFORTING RELIEF FROM Runny HEAD COLD

DO THIS: Put some Vicks VapoRub up each nostril and sniff well back. You'll feel better right away. Next, melt a spoonful of VapoRub in a bowl of boiling water; then breathe in the steamy medicated vapors for several minutes. This loosens phlegm and further clears the air-passages. At bedtime, rub VapoRub on throat, chest, and back so that its long-continued double action can relieve the misery of the cold while you sleep. VapoRub acts direct through the skin like a poultice; at the same time the medicated vapors, breathed in direct, bring comfort to the irritated air-passages. Try it.

Zeigler, and Karl F. Green, of the scouts.
Whenever major emergencies occur, the Red Cross and the Boy Scouts have always answered the call for service quickly. Up to now, however, close cooperation tending toward better service has been lacking. Under the plan agreed upon at the meeting, the Boy Scouts will be formed into service units, under Scout leadership.
In emergencies these groups will work under the supervision of the Red Cross official in charge.

PRESIDENT ASKS LARGE INCREASE IN DEFENSE OF U. S.

(Continued From Page One)
War, April 6, 1917, until the end of May, 1918, the American forces took no part in any major engagement. Even as late as the autumn of 1918, he reminded, American armies in France were still using French and British equipment.
"Calling attention to these facts," he continued, "does not remotely intimate that the congress or the president have any thought of taking part in another war on European soil, but it does show that in 1917 we were not ready to conduct large scale land or air operations. Relatively we are not much more ready to do so today than we were then—and we cannot guarantee a long period free from attack in which we could prepare.
"I repeat that there is a new range and speed to offense."
"Therefore, it has become necessary for every American to restudy present defense against the possibilities of present offense against us."

Need Revision
Careful examination of the "most imperative present needs," he said, led him to propose the \$825,000,000 emergency program, of which sum approximately \$210,000,000 would be expended during the next fiscal year.

"Information from other nations," he said, compelled a complete revision of our estimates for aircraft. This was an oblique reference to the report which Col. Charles A. Lindbergh recently supplied governmental agencies, to the effect that Nazi Germany has 10,000 airplanes, and a monthly production capacity of 1,000.

"No responsible officer," the President continued, "advocates building our air forces up to the total either of planes on hand or of productive capacity equal to the forces of certain other nations. We are thinking in the terms of necessary defenses and the conclusion is inevitable that our existing forces are utterly inadequate that they must be immediately strengthened."

Military Aviation Alarms
The President pointed out that military aviation is "increasing today at an unprecedented and alarming rate." He mentioned "increased speed, increased range and increased capacity."

The additional planes, he said, will considerably strengthen the air defenses of continental United States, Alaska, Hawaii, Puerto Rico and the Canal Zone.

Of the whole appropriation of \$825,000,000, Mr. Roosevelt recommended that it be allocated in this way: \$450,000,000 for needs of the army, including not only planes, but anti-aircraft guns, and other modern equipment; \$65,000,000 for new needs of the navy, and \$10,000,000 for the training of civilian air pilots.

Co-operation between the government and colleges and universities, he said, would provide primary air training for 20,000 pilots.
"The young men of this nation should not be compelled to take the field with antiquated weapons. It would be economically unsound to provide in time of peace for all the modern equipment needed in a war emergency. But it would be financially unsound not to provide the critical items of equipment which might be needed for immediate use, and not to provide for facilities for mass production in the event of war."

"Devil of all hysteria, this program is but the minimum of requirements," Congress was prepared for the defense message, for Mr. Roosevelt had prepared the way for it in his historic message of January 4, when he flayed the dictatorship countries and pictured them as the menacing aggressors of the democracies everywhere.
His message was read by clerks to a receptive Congress. There was some grumbling over the increased expenditures, and there will be some opposition to the program he proposed, but in the main it is expected the President will get about what he asked for.

Fine New Roadway To Universal Pottery Company Eliminates Grade Crossing

ROAD WELL BUILT FOR HIGH WATER

Everything is now in readiness for the opening of the new roadway to the Universal Pottery Company on Friday of this week. The roadway, starting at the East Cherry street bridge, follows the Shenango river to the pottery, thus eliminating the dangerous grade crossing at the B. & O. shops.

According to those in charge of construction, the work will be completed today, but it will not be opened until Friday to permit the concrete under the railroad bridge to set.

This new road, although running along the river is well protected from high water. All along the road, bank huge stones have been piled to add re-inforcement against the water. Where the road goes under the P. & L. E. and B. & O. trestle a high wall has been built of stone and the road at this point is of concrete, to prevent it from washing away in the event of high water.

Employees of the pottery are anxiously awaiting the road opening. Each day they drive over at least 20 railroad tracks and through the railroad shops to get to their work. This is exceedingly dangerous for those going to and from the company.

This road-building project was sponsored by the P. & L. E. and the B. & O. railroads, with the P. & L. E. group being in charge of the work. The contract for the job was let to the Tri-State Construction company of Washington, Pa.

The entire job required but little

over a month's time to complete. Guard rails have been installed along the entire route of the new roadway to prevent any possible mishaps.

NEWS BRIEFS IN WARD DISTRICT

Many motorists have been making it a habit to drive up to the wrong side of the street and park and then when ready to leave drive directly across through the middle of the street. Besides being a dangerous practice, this is forbidden by law.

Workmen who are employed on Maple street have started to lay the large stones for the stone gutters now being installed on both sides of the street.

May Restore Some School Shop Work

School Board Considers Proposal—Suggested By Superintendent Green

In a communication to the members of the New Castle School Board on Wednesday night Dr. C. C. Green, superintendent, suggested several curricular changes for the coming school year. The most important change suggested was the re-establishment in part of the vocational courses for boys, making the shop work an adjunct of the senior high school.

Dr. Green said the instructional cost would be small, inasmuch as the Federal government would provide fifty per cent of the teacher cost in addition to which the state would grant its usual subsidy.

"As a beginning," said Dr. Green, "I would recommend three shops, electricity, machine shop and drafting. In the long run this type of instruction will not cost any more than the present academic type and it will be more useful."

Members of the board indicated their approval of such a course for next year if the cost would not be too high. The budget is in progress.

Varied Inferences On Appointments By Gov. Elect James

State Patrol May Again Be Divided

Reappointment Of Major Lynn G. Adams May Result In Change

SOME PINCHOT MEN GET APPOINTMENTS

By RAYMOND WILCOVE
International News Service Staff
Correspondent

HARRISBURG, Jan. 12.—Varied inferences were drawn today in the wake of the announcement of Governor-elect Arthur H. James' cabinet appointments.

The appointment of Major Lynn G. Adams as motor police commissioner strengthened reports that the incoming administration planned to separate the Pennsylvania motor police into its two former divisions, that of the state police and the highway patrol. Major Adams, for many years state police superintendent, resigned as deputy commissioner when he disagreed with the Earle administration over the consolidation of the two forces.

Hines Appointment
The appointment of Lewis G. Hines, personal representative of William Green of the American Federation of Labor, as secretary of labor and industry was regarded in labor circles as a virtual slap in the face to both the CIO and the AFL state bodies, though the leaders of the two groups publicly expressed approval of the appointment. The Pennsylvania Federation of Labor broke with Green in supporting the Republican ticket and Hines leading the fight to defeat the PFL-endorsed Democratic slate. When Governor-elect James and U. S. Sen. James J. Davis won, Green asked that

James L. McDevitt and David Williams, AFL president and secretary-treasurer, resign. They refused. The appointment of Hines was accompanied by reports that the department of labor and industry would be divided into two departments. At the same time there were reports that the department of mines would be relegated to the status of a bureau under the department of labor.

Former Deputy Returns
The appointment of Howard L. Russell as secretary of public assistance will bring back to the capitol a former deputy secretary of public assistance under Gov. George H. Earle. Russell was dismissed last January for "disloyalty and insubordination" the day after Karl De Schweinitz resigned as secretary. The new public assistance secretary, in a statement issued after his appointment, stated that he believed unemployment "will be with us forever on a mass scale."

The appointment of Miss Sophia M. B. O'Hara as secretary of the commonwealth broke more than one precedent. The post is usually filled by the state chairman of the winning party. She will also be the first woman to head the state department. Unconfirmed reports were that Miss O'Hara is slated for a higher post in the near future, perhaps a judgeship. Several Pinchot men were also noted among the appointees, notably Budget Secretary Edward B. Logan, who held the same post under the former governor; Insurance Commissioner H. M. Taggart, who supported Pinchot in the 1930 Republican primary for governor, and Secretary of Revenue William J. Hamilton, who was appointed sheriff of Philadelphia county by Pinchot.

'Y' BOARD HEAD WILL ANNOUNCE COMMITTEES
Standing committees of the New Castle Y. M. C. A. for 1939 will be named at the January meeting of the association's board of directors on Friday, January 13 by John A. Butler, board president. The board will meet in the "Y" at noon that day.

'Ted' Colchiski Is Knox Medal Winner

New Castle Private Takes Honors At Coast Artillery School

A New Castle young man, Private Thaddeus M. Colchiski, today was named by Secretary of War Harry Woodring as winner of the coveted Knox medal which is given annually to the enlisted man making the best record as a student at the Coast Artillery school, Fort Monroe, Va.

Colchiski is known to his many local friends as "Ted" and was graduated from New Castle high school in the January class of 1934.

Schools Will Hear Dr. Artman, Editor

Students of George Washington Junior-senior high school and possibly Union Township high school will hear Dr. Joseph M. Artman, noted Chicago editor and lecturer, when he comes to New Castle Friday, January 20, under the auspices of the local Y. M. C. A.

Dr. Artman, editor of the monthly, "Character and Citizenship" is to address an audience of boys' work leaders in the "Y" banquet hall that evening at 6:15. General Secretary Robert L. Meermans is taking dinner reservations. The school appearance of Dr. Artman, Meermans said, will be under the sponsorship of the Hi-Y clubs of the buildings where he speaks.

National Council Meeting On Monday
New Castle Section National Council of Jewish Women will hold their regular meeting on Monday evening at 8 o'clock, in the home of Mrs. Morris Davis, 103 East Leasure avenue.

CAMERON COUNTY HAS NATURAL SNOW FENCE
(International News Service)
HARRISBURG, Jan. 12.—Snow fences—the wooden barriers erected by the department of highways to prevent snow from drifting into the highways—are not needed in Cameron county, in the heart of the Allegheny mountains. Trees and shrubbery, and the fact that the roads skirt hills which required cuts on one side, provided protection against drifting. Another reason is the topography of the country which consists of very narrow valleys adjoining high hills.

Routine Before Board Meeting

Number Of Minor Matters Before School Board On Wednesday Night

Protesting against the use of American Book Company products in the schools, because of alleged non-union practices, a letter was read Wednesday night by School Board Secretary John B. Bechtol from Ray Nolle, secretary of the New Castle Trades and Labor Assembly. A similar letter was read from H. E. Hickling, secretary of the Typographical Union.

The letters both charged the American Book Company with non-union practices and asked that their books not be used in New Castle public schools. The board instructed Mr. Bechtol to answer the letters and say that this situation would be considered the next time books were ordered.

Secretary Bechtol asked authority to destroy an accumulation of old papers which had been gathering in the vault for years. Papers of more than five years of age will be destroyed inasmuch as their contents are all in the record books of the board. A meeting between the board and the principals of the various schools was set for Wednesday night January 18 at which time the problems common to both board members and principals will be discussed.

Class basketball in the high school will be stressed in the future, the board authorizing the use of Arthur Alexander as a class team coach, the practicing to be done in the evenings.

Miss Laura Blucher, a teacher of the public schools asked for and received an extension of her sabbatical year for the remainder of the school term. She has been out this semester due to her health.

First Aid Classes Are Being Formed

Harry Culliford, chairman of first aid of the Lawrence county chapter, is conducting a class in the chapter office each Monday evening at 7:30 o'clock for the Veterans of Foreign Wars. There are a few vacancies in this class and if there are any who desire to take this course, they are asked to report to the Red Cross office next Monday evening. An evening class for women will be started soon, which will also be held in the chapter office and under the direction of Mr. Culliford and it is the desire of the chairman to have all those interested make application for the class immediately. Enrollment may be made by phoning the Red Cross office and the date of the class will be given them.

P. T. A. SPEAKER HERE SATURDAY

Members of the school board were invited Wednesday night to attend the meetings of the Lawrence County Council, Parents-Teachers Association, particularly the one to be held Saturday night in the Y. W. C. A. when Miss Ollie Backus of Slippery Rock State Teachers college will speak on "Speech Defects."

The invitation was presented by Mrs. Leonard Kramer, president of the P.T.A., who was accompanied

by Mrs. C. R. Brenner. The board received the invitation and then invited the P.T.A. to co-operate with the board.

CENTRAL CHRISTIAN SERMON FOR TONIGHT

State Evangelist R. E. Johe will tonight speak at the Central Christian church, Long and Pennsylvania avenues, on the subject, "Tabernacle Types," and Mrs. Johe will tell a story about "What the Architect Forgot."

Friday night the boys and girls chorus will sing and there will be a demonstration of things the children have learned during their afternoon meeting with Mrs. Johe.

Now they plan to increase the tax on incomes of \$5,000 to \$25,000. They figure that anybody making as much as \$5,000 is against Roosevelt, anyway.

Recount 25 Years Progress For Ellwood Public Library

ELLWOOD CITY, Jan. 12.—The public library will celebrate its 25th anniversary on Friday and this community can well afford to take time and pay tribute to such a fine institution and its excellent librarian who has also served this community for 25 years.

The Public Library of Ellwood City was the outgrowth of the efforts of Prof. C. F. Becker, then superintendent of schools, to establish a high school library. The pupils had raised money to buy books and when Prof. Becker appealed to some of the leading business men of the community for funds to supplement this amount, he was met with suggestion, "Why not a public library, instead of just a school library?"

Other business men were interested and finally a public meeting was called for the purpose of discussing plans for the organization of a library. So enthusiastic was the response that, when the matter was brought before the school board, they appointed a board of trustees and appropriated \$500.00 for books.

The first members of the board of trustees of the Ellwood City Library were: Mr. J. J. Dunn, C. A. Martin, J. S. Jamison, A. E. Conner, the Rev. A. P. Lentz, with Dr. C. M. Hadden, president of the school board and Prof. C. F. Becker, superintendent of schools, ex-officio members.

Upon the recommendation of the library extension division of the State Library, Harrisburg, Mrs. Catherine M. Charles of Foxburg, Pa., was elected librarian and assumed her duties December 1, 1913, and immediately began the work of organizing a library.

At that time the only assets of the library were \$500.00 from the school board, 200 books from the high school library and the good will of the people. We were passing through what we then thought was a depression so money was scarce and it was not considered advisable to ask for tax support or even make a general campaign for funds, but the people wanted and needed a library and there was scarcely a man, woman or child in the community who did not contribute either time, effort or money to the new enterprise.

The industries of the town contributed liberally and voluntary contributions from individuals, some in weekly or monthly payments, were received so, altogether, the first year's receipts amounted to over \$2,400.00.

An empty store room in what is now the American Legion Building was rented. At that time, the high school was in the old Central Building and the library was directly across the street, so the high school pupils immediately made it their headquarters after school hours, and many of them were pressed into service in the work of preparing for the opening. Just six weeks after the newly appointed librarian arrived, the library was opened officially, on January 13, 1914, with a public reception.

There were just 600 books on the shelves on the opening day and three days later the shelves were bare. During the first month, there were 1800 volumes loaned which meant an average of three circulations for each book in the collection. By the end of the year the library had 2011 books, 1678 borrowers, loaned 26,945 volumes and was an acknowledged success.

For the first two years the library's financial support was somewhat uncertain but in 1917 the Borough Council came to the rescue with a tax levy of 1/2 mill to supplement the school board's appropriation and from that time on the library income has kept pace with its growing needs. But for this adequate support, there could be no such story of continued development as the records show.

The 600 volumes with which the library was started has increased to 21,112, and the yearly circulation from the 21,945, for the first year to 143,907 for the 25th. In these twenty-five years of its existence, the library has accessioned 41,867 volumes and circulated 1,688,616. It

On Saturday night the first half will be completed with the Inspection to play the Cold Finish and the Hot Finish slated with their greatest rivals, the Office.

WILL DEDICATE CRAWFORD HALL

New Building To Be Placed In
Service At Grove City
College, Jan. 14

(Special To The News)
GROVE CITY, Jan. 12.—Formal dedication of Crawford Hall, Saturday, January 14, will mark the completion of a quadrangle unit of five buildings, all erected since 1930 on the upper campus at Grove City college, one of the largest liberal arts colleges in Pennsylvania. The latest construction project, a combined administration building and auditorium, was made possible by the generous gifts of Harry Jennings Crawford of Enlenton, Pa., a trustee of the college since 1922, and other friends of the school.
Built of Brainerd sandstone and Indiana limestone, Crawford Hall faces Harbison chapel, of similar materials, across the quadrangle. The new building, erected at a cost in excess of \$375,000, completes the first unit of a planned program that in the past eight years has involved an expenditure of more than a million and a half dollars. Since 1930 the college has completed two dormitories—Ketter Hall for men and Mary Anderson Tew dormitory for women; the Hall of Science, Harbison Chapel and Crawford Hall.
Featuring the dedication program will be an address by Barclay Acheson, associate editor of "Reader's Digest". Mr. Crawford will make the presentation, and President Weir C. Ketter will accept it for the college. Samuel V. Ramage of Oil City, Pa., a member of the board, will present a portrait of Mr. Crawford. The portrait, painted by H. Birmingham Ballou of Boston, Mass., is an expression of Mr. Ramage's warm friendship for Mr. Crawford.
The Hon. William M. Parker, judge of the superior court of Pennsylvania, will also speak.

Aliquippa To Test New Castle Friday

New Castle Must Defeat Valley Quintet To Remain On Top Rung Of League

Reserves Will Play At 7 O'Clock, Aliquippa Has Strong Team This Year

New Castle high's "Red Hurricane" basketball team will get a severe testing Friday night at the Arena floor when the strong Aliquippa high team coached by Nate Lippe will show here. The reserves of the two schools will play the preliminary game at 7 o'clock.

Whether or not New Castle is to continue to rule the roost in the Section Three championship race will depend on the outcome in the Aliquippa game. The valley team, which has been under 30 points in any game so far this year, has a high scoring machine, as they have not been under 30 points in any game so far this year.

Walsh, Branchetti and Hanshaw are the "big three" of the Lippe machine and will bear watching. Woodward also is a player worth keeping an eye on. Aliquippa has a veteran team this year, having lost very few men of the 1937-38 team.

New Castle's victory over Ellwood City has pepped them up considerably and they will put up a great fight tomorrow night to try and get "by" this Aliquippa hurdle.

Head Coach Phil Brudenbaugh will stick to his regular starting lineup with Clark, Gennock, Bombyk, Wendt and Lauro slated to see plenty of action.

The game prices still prevail, with the students paying 15 cents, general admission 25 and reserved seats at 35 cents.

Sutherland Will Coach All-Stars

(International News Service) NEW YORK, Jan. 12.—Dr. John Bain Sutherland, football coach at Pittsburgh, will coach the eastern college all-stars of 1939 when they meet the professional champion New York Giants next September in the Polo grounds, it was announced today by Stanley Woodward, director of the Tribune fresh air fund game.

Section Twenty Battles Friday

There will be two games played Friday in Section 20 of the W. P. I. A. L., Shenango meeting East Brook at the latter's court with Hutchison and Comemeadow working the game, and Union high at New Wilmington, where Wes Mann and El Lockley will officiate.

The North Hill Blackhawks would like to schedule ice-hockey games with all fast teams. The following make up the squad: Will Headland, Russ Headland, Bob Fobes, Bob Black, "Beef" Finch, Dick Barker and Mel Boderschneider.

Rambling Around World Of Sports

Sports chatter...Ray Bombyk, New Castle's Casey, is on the spot...He's a marked man from here to there...Last year's understudy to Ed... "Bus" Straubach has only sent the spurs dripping through the curtains for 39 markers in the first three Section 3 battles for the Canes.

The remaining foes have their eyes on him...This lad Sturgeon, who plays forward for Carnegie Tech, is the son of F. B. Sturgeon, Westminister griddler of years ago, who was coach at New Castle high around 1913-14 and 15...His mother is the former Miss Lucille VanGelder, a former member of the local high school faculty...The Sturgeons reside in Aspinwall, where Arthur McCombs, former Ben Franklin skipper, is doing a grand job of coaching.

One of the leading coaches in the county informed me that this Bessemer high basketball team is the team to be reckoned with this year... Says our informer: "That's the club of clubs. The quintet includes most of those football players who handle that basketball in smooth fashion. They get my vote for the Section 20 banner"...

Shenango township and New Wilmington fans follow through with an "Oh yeh!" That fourth quarter spurt (27 markers) didn't hurt the New Castle Boosters, when the locals thumped the crack New Kensington Polish Falcons...

The independent aggression is getting quite a following, which is quite apropos...A team good enough to down Geneva College under the Westminister, McKeesport "Big Five" and several other notpotters deserves a break.

So what dept... "Lefty" Grove, the aging flinger who is still good enough to chuck for my chips, has quit smoking cigars...Raymond Blades, new commander of the St.

Titans To Battle Geneva Tonight

Westminister Is Starting Series Of Four Games Away From Home

TITANS TO PLAY PITT SATURDAY

(Special To The News) NEW WILMINGTON, Jan. 12.—Opening a series of four road games, Westminister's Titans meet the Geneva Covenanters at Beaver Falls tonight.

An early season tussle ended in a 41-33 Titan win, and the Geneva five will attempt to repeat last year's performance, which saw Westminister wilt on the valley court, after downing the Covenanters in New Wilmington.

A fixture in the Westminister starting lineup since his performance against Slippery Rock last week, when he scored 13 points in five minutes, Joe Hetra, Farrell junior, will start at left guard on a comparatively inexperienced five, composed of Hetra and Spak at guards, Wasik at center, and Miller and Wilson at forwards. Spak, Wasik and Wilson are all freshmen.

Scoring over 40 points against Geneva, Carnegie Tech and Slippery Rock, the Titans present a well-balanced scoring machine, built around the shot-making Miller, New Brighton junior forward; Wilson, McKeesport freshman; Wasik, Pittsburgh yearling; and J. Hetra, Farrell junior.

Depending chiefly on shooting ability, as opposed to set offensive plays, Westminister's five provides slight target for defenses which other clubs have tried to use against the Blue and White attack.

Coach Wetner's Geneva squad hopes to rebound from such early-season knocks as the previous Westminister win, a two-point defeat at the hands of Carnegie Tech, and a one-sided loss to Duquesne.

Following the Geneva tilt, the Washabugh-coached Titans will play Pittsburgh at the Stadium, Saturday, Jan. 14; W. and J. at Washington, Tuesday, Jan. 17, and Waynesburg, at Waynesburg, Wednesday, Jan. 18.

House Of Davids Will Appear Here

Famous Basketball Team Battles Boosters On Saturday, January 28

The "bearded basketballers" have already defeated some of the strongest quintets in the country.

Announcement was also made that the New Castle Boosters play the Sharon Steel Hoop, Saturday night, at Sharon. Youngstown or Franklin play here on Sunday afternoon.

RIZZO SENDS BACK SIGNED CONTRACT

(International News Service) PITTSBURGH, Jan. 12.—Johnny Rizzo, the Pittsburgh Pirates' star rookie last season, has signed his 1939 contract. It was learned today. Rizzo was given a sizeable salary boost, according to club president Bill Benswanger.

NO BOXING HERE MONDAY NIGHT

It was announced today there will be no boxing bout Monday night in The Arena because of most of the good amateur boxers being booked in Pittsburgh and other cities on that night.

COL. RUPPERT RALLIES

(International News Service) NEW YORK, Jan. 12.—Displaying the same brand of tenacity which sent his champion New York Yankees to many a pennant, Col. Jacob Rupert, 71, the millionaire brewer and sportsman, belied the doctor's prediction of his physician today by continuing to cling to the last slender thread of life.

Bessemer-Shenango Lead In Section 20

While other Class B entrants sat on the sidelines, Bessemer high's smooth functioning basketball outfit side-tracked Wampum, 35-18, to go into a deadlock for the leadership of Section 20, Tuesday.

Shenango Township faced its test of the season last week, trouncing New Wilmington high for a clean slate, three wins and no losses, as far as the sectional race is concerned. Bessemer, with a pair of setts on the win side, came up with its third triumph Tuesday night. Bessemer is bound to remain on top, as the next league fray comes January 17, a meeting with Shenango. On the other hand, Shenango must handle East Brook Friday to take undisputed possession of the leadership.

New Wilmington high's classy combination has a date with Union at the College Town hardwood Friday.

"Pat" Patterson, who resides in New Wilmington, where he finishes his coaching, teaching duties at Union, has a hunch his Scotland Lancers have enough to beat the lanky New Wilmington gang. Wampum has an open date while Mt. Jackson takes a little jaunt to Princeton.

Friday's Schedule

Shenango at East Brook.

Mt. Jackson at Princeton.

Saturday

Bessemer at Lovellville.

Heading the advice of Police Chief Ralph A. Griswell several motorists have reported the theft or loss of their 1939 license plates. Some time ago the chief advised that a report be made immediately to police of such thefts or loss because bandits sometimes steal license plates to put on a car to be used in a holdup.

Auto owned by Rufus Patterson, R. D. 5, stolen from a Sycamore way garage Tuesday, has not yet been found.

Max Ludwig, 1504 Highland avenue, reported to police last night someone stole an Eastman kodak from his auto which was parked in Lincoln avenue near the Cathedral.

Refer Report Back To Planners

Commission Requested To Provide Council With Record Of Hearing

Council met today in the city building and referred back to the City Planning commission the Planners' recommendation that a section at Division street and Fairview avenue be changed from a residential to a local business zone. The action was urged by Attorney Joseph Letta, representative of clients in that section.

A petition for the change was given council, sent to the Planners in December, and the change was recommended recently. However, it appears some residents did not understand fully the intent of the petition they signed and Letta pointed out no public hearing was held. Some of the petitioners now protest the proposed change, hence council's action today.

The Planners were asked to provide council with records of their hearing on the petition.

Congressman Graham Announces Test Will Be Conducted In Near Future

WORKERS ALLIANCE DELEGATES VISIT

Three Pension Increase Bills Are Presented By Congressman

By ARTHUR G. WIMER (Special Washington Correspondent, New Castle News)
WASHINGTON, D. C., Jan. 12.—Representative Louis Graham of Beaver announced here today the Civil Service Commission would shortly hold a preliminary competitive examination for a vacancy in Annapolis Naval Academy to be filled by a youth from the Lawrence-Beaver-Butler congressional district. From the list of candidates certified by the commission as passing the preliminary test Mr. Graham will name a principal candidate and three alternates for the naval school vacancy. All four will take the entrance examinations given at Annapolis in early March.

Congressman Graham said all candidates wishing to take the preliminary test should have their application filed with him in the House Office Building, Washington, D. C., no later than January 17. He said exact date of the test would be announced later. The examination, he explained, would be held at New Castle, Butler, and Beaver Falls.

Mr. Graham this week received in his office here a delegation of WPA workers from Lawrence County headed by Thomas Hanlon and Raymond McHenry. The Congressmen freely discussed WPA needs with the delegates but declined to commit himself to any specific appropriation.

Congressman Graham has introduced into the House of Representatives three bills calling for increases in the monthly Federal pensions of Tarquin Marziano of Ellwood City, Mrs. Matilda Tarno of Butler, and Mrs. Clara Hammond of Butler county.

Uses 6500 Pieces Of Wood To Build Unique Table

After exercising much skill and patience, William J. Lloyd, of 514 Neshannock Boulevard, has completed a novel checker and card table, which is a work of art and beauty.

The table top is two feet square, the base of which is of fir ply board, and overlaid with over three thousand well shaped particles of walnut and maple wood.

In the center is the "checker board", surrounded by "club, diamond, heart and spade" designs, five point stars, and numerous other artistic designs. There are four neat drawers, with knobs, one on each side.

The table top is set upon a center leg, with four feet, all of which are also overlaid with small particles of wood.

In all, the table contains over 6500 pieces of wood, on which Mr. Lloyd commenced work, last February. He worked at it, off and on, in his workshop in the basement, ever since.

Mr. Lloyd is a retired machinist, and well known in this city.

Novel Memorial Plan Of Class

Graduating Class Will Leave Insignia In Floor Of High School Corridor

Foot prints in the sands of time are going to be brought in out of the weather by the mid-year graduating class of the senior high school. Instead they are going to leave them in the corridor of the school building where the coming generations can see who went before.

Appearing before the school board Wednesday night Glenn Gordon, president of the class, asked the board if the class of January, 1939, would be permitted to have inserted in the corridor floor the class insignia, baked in a hard brick. The idea is to have succeeding classes do the same thing until after a time the students will be walking over a floor of insignias. The board granted its approval of the idea.
